

Wednesday Ladders

Mixed Pool

Ladders after Wednesday week 10 - 22nd of January, 2020

In mixed competition, the first two rounds are grading rounds. After that we begin regular season competition

During the regular season game results count towards final ladder position. But in the first half of the regular season the grades are semi fluid and teams may be moved between grades or play teams in other grades. At approximately the half way point (for Summer season usually Christmas) grades are finalised .

Teams however keep their points from all regular season games into whatever grade they end up in.

Read here more information on how our [season is structured](#).
